Dear Dennis, 5/8/95

Thanks for your 5/2 and the enclosures. I did have that in the Sunday Times and I look forward to reading the others as soon as I'm not working. I've kept at Mailer's Tales and have about 50,000 words on paper.

If you can retrieve any TV shows, Mailer was his usual wise-guy self on CNN about about 10 days ago and said what I'd like to be able to quote about evidence, if you can get that.

In terms of space the Globe appears to be # 1 in what I've seen.

Gald you have NEVER AGAIN! That I do not have them is embarrassing. I've asked Bill to give you and Gerry copies of the index, which was forgotten. I think the farthur you get into the book the more you may find for your students. Including a bit from Bill's wife, Betsy.

I've lost track of what I asked of whom om Waketh but Bill and Gerry do have copies of the diskette, as does Dave.

No, this time no gutting. Of which I'm glad!

Many thanks,

Harold
